Dear Mr. Indergard:

The Division of Oil, Gas and Mining conditionally approves the proposal, received February 25, 2013, to expand Dump B. The following conditions apply:

1. By October 1, 2013, submit a new, revised Notice of Intention to Commence Large Mining Operations (Notice) which includes the following:
 - a. Maps and plans incorporating all the changes that have been made since the Notice was originally approved.
 - b. A reclamation cost estimate based on the new Notice. The Division will provide forms and technical assistance as needed.
2. Also by October 1, 2013, please provide the Division with a set of maps that show when each parcel of land was given either partial or full bond release and detailing the status of reclamation in these areas. These maps should be updated and submitted with the annual report each year.

Thank you for your cooperation and patience in completing this permitting process. Please contact Wayne Western at 801-538-5263 or me at 801-538-5261 if you have questions regarding this letter.

Sincerely,

Paul Baker
